Dear Harold,

Enclosed with this letter you will find several items, the bulkiest of which is a copy of the collection of student papers from the Interim project we completed a week and a half ago. Posner will also be getting a copy, for what it's worth. A couple of the papers are pretty poorly written and could have had more documentation, but I believe the last three are especially good. I thought some of the others involved in perpetrating that fraud also deserved a letter. Loomis, Ambrose and Nuckerman will be getting copies of my cover letter to Posner. Ambrose will get a copy of the final quiz I gave my students.

I have read most of the unedited Hoax. I am sorry the publisher decided to cut out the chapters on Garrison and New Orleans. They are well-written and intriguing, even for someone like myself has some familiarity with that aspect of the case. I also think some of the chapters cut out make pretty clear that Posner had substantial help. I was able to make that point for my students. The printed copy I have ends on p 768. The last chapter is XXXII "The Jonnaka man" (p 724) and the Epilogue which begins on p. 758.

Hope you made it through that snowstorm ok. We got a little ice from it, but so far we have escaped any major snow & ice.

I am looking forward to any response these letters may elicit - Regards to Lillian.

Best Wishes,
Gary
